About This Game

Moss™ is a single-player action-adventure puzzle game and new IP from Polyarc tailor-made for the VR platform. It combines classic components of a great game—such as compelling characters, gripping combat, and captivating world exploration—with the exciting opportunities of virtual reality.

As a special thank you to fans, Polyarc is gifting the full Moss digital soundtrack composed by two-time BAFTA award-winning composer Jason Graves to everyone who has purchased or will purchase Moss by August 17, 2018.

In Moss, players meet Quill, a young mouse with dreams of greatness beyond the confines of her settlement. While exploring the woods, she finds a mysterious Glass Relic and an ancient magic is awakened. With her uncle now in grave danger, Quill must embark on an epic journey—and she needs you there by her side. Together, you'll travel to forgotten realms, solve challenging puzzles, and battle menacing enemies. Alone, no one can conquer what you're up against. But united, you just may defeat even the darkest of villains.

A Story Told Unlike Any Before

From its opening pages, Moss will draw you into a first-of-its-kind fully immersive world of myth and magic. Enjoy a rich tale of intriguing characters, illustrious artifacts, and legends old and new.

Moss Soundtrack

Jason Graves brings to life the melodic and playful adventure in Moss from the hero Quill's perspective. Graves accomplishes this by employing small and intimate-sounding instruments composed, arranged, and produced in a pastoral soundscape with enchanting Waltz-esque flair. The soundtrack consists of 11 in-game tracks with more than 57 minutes of music, including the bonus track "Home To Me," featuring YouTube sensation Malukah.

NOTE: Gamers who purchase Moss by August 17, 2018 will find the free soundtrack in the DLC section of the game as part of the August 3, 2018 game update. Everyone has until August 17, 2018 to download the MP3 files before the soundtrack is removed from the DLC section of Moss.

Wonderful little adventure. Simple puzzle platformer with a soothing soundtrack and great visuals. Also, Quill is adorable. It's a bit short, so would recommend when it goes on sale.. I can't recommend this game enough - the art direction is absolutely stunning and it's a real showcase for VR done right. You need Moss' adorable, communicative, tiny hero Quill in your life.. Best story-driven VR game so far. 10/10. A stunning, fun and fantastic VR experience. Well done folks!. In Moss you are helping along a little mouse get through puzzles and fight little baddy-crabs. I didn't realize until playing this game how amazing a 3rd person (with some 1st person elements) game could look in VR. Much of that credit is given to the beautiful level design, the game feels like you are playing in a well crafted miniatures set. If you like puzzles, zelda-like games, and cute little mouse-people you will like this game. I'd say it's in my top 5 VR games.

I should note too that most VR games give me motion sickness. Since this game you are mostly in a fixed location it does not. If motion sickness is an issue for you as well you need not worry! (I added this comment because no one seems to include this in reviews, but supposedly 25% of VR players report VR causing motion sickness and I feel its worth mentioning)
