Amazing.

Even better than the main game 10/10. A whole new game, just go ahead and buy if you are into the witcher.. get it or you gay. dont do grass tho. First of all, this DLC is more than just an additional gameplay. It's a story, with its characters, its monsters and its territory. "Blood and Wine" came out just a year after the game did, that's why only the main plot quests take 20 hours to complete. But to feel yourself really in the game, in Toussent, the extra missions are obligatory to play. After some days of adventures in Toussent you won't want to come back to grey and gloomy Wyzima. Of course Toussent is based on r.l. medieval France or might be Italy, where the knights' fights and wine feasts are the main activity of every young man. Despite the fact that its metascore is only 92/100, I would give it 96 or 97, and that's the firm 10/10.
